Making Cyber Threat Intelligence & Dark Web monitoring affordable and accessible to everyone. With the ever increasing threat of companies and organisations being subject to a cyber incident, The ZDL Group allows you to sleep easier at night.

Why do you need Threat Intelligence?

The results of a GOV.UK survey released in April 2023 confirms cyber security breaches are becoming more frequent.

It found 69% of large UK businesses reported a cyber attack during the year. Of those, 21% claimed they experienced a cyber breach or attack in 2023 at least once a week.

Book A Call

We can help you avoid the question from your CEO or MD...

Why didn't we know about this?

Simply put, we monitor keywords, email addresses, domains and more online including the Dark Web, so you get to know immediately if your data has been leaked.

You can then do something about it.

Don't be put in that awkward position...Our affordable service is easy to implement.

We are your eyes and ears online, even in the darkest places.

We understand the risks. We understand your risks.

You are a busy business handling not only internal data, but also client data. It's held across multiple platforms and you understand the need for security...but you are always vulnerable.

Our mission is to make Cyber Threat Monitoring affordable and accessible for you. A solution that is up and running in minutes.

There will be winners and losers in this ever-evolving threat environment. Those who take active and precautionary measures monitoring cyber threats, and those who don't.

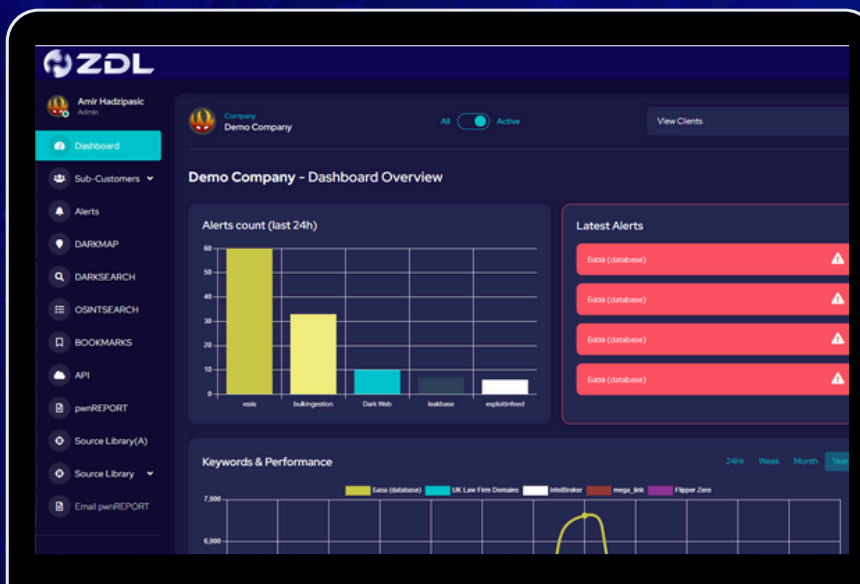

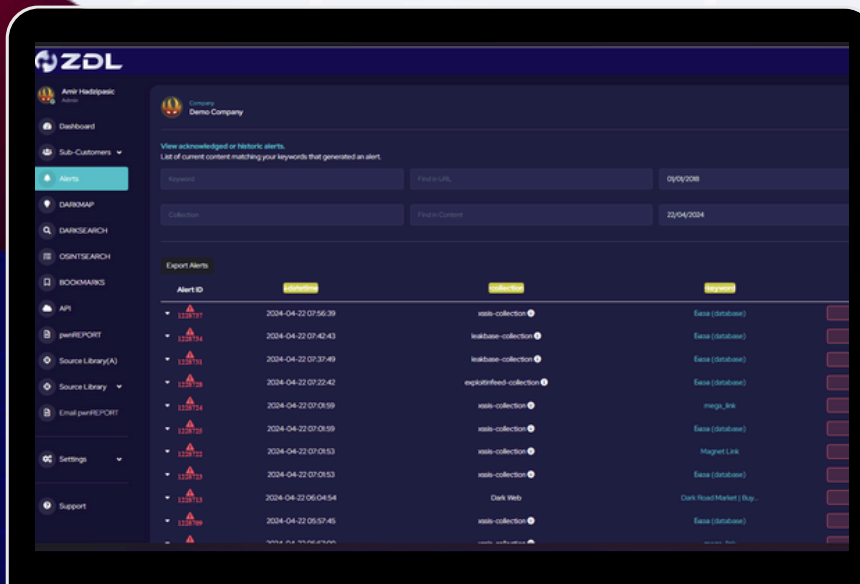

Which one are you?

We can help you sleep easier at night with our Managed Threat Intelligence.
