Full Time – Permanent Role

Penetration Tester
Based in London

The ZDL Group is looking for a new generation of penetration testers to join our rapidly growing team. Whether a seasoned professional or at the beginning of your career in cyber security we're looking to talk with penetration testers of all levels.

Why The ZDL Group?

The ZDL Group is a company that recognise employees as the centre of our success. We employ only the best technical experts who have a true passion for Cyber Security. This passion drives our desire to evolve with emerging threats and enables our technical experts to deliver unparalleled services to our clients.

We help our penetration testers achieve their full potential by providing paid training and professional certifications including CREST and OSCP. This ensures our team is at the top of their game on Mobile, Web Application, Infrastructure, WiFi, Reverse Engineering, Exploit Development, Research, Red Teaming and Social Engineering engagements.

Our Pentest team is made up of specialists in all areas of Penetration Testing and we are great at sharing knowledge and ideas. You will bring a wealth of knowledge into the team and work with industry experts who will be able to share with you, new skills and techniques.

We work with a plethora of interesting clients on ground-breaking projects. If you want exposure to a variety of industry sectors, working on projects that will challenge you to innovate and problem solve then The ZDL Group can offer you the variety you are looking for.

About you

- A technical expert in Manual Penetration Testing, both internally and externally
- Specialist in one or more of the following: Web Applications, Infrastructure, Mobile, WiFi, Reverse Engineering or Exploit Development
- The desire to constantly learn and develop
- Have a critical eye for detail
- The ability to explain to all audiences how attacks are carried out and executed (e.g ROP attack)
- Experience of working in large datacentres with exposure to switch patching and testing procedures
- Professional experience in buffer overflows, XSS, SQL Injection and the full OWASP Top 10
- Excellent report writing skills
- Holding and maintaining OSCP, CREST, or equivalent is desirable
- Happy to travel to client sites
- Happy to work from home or local office
- Punctual and professional

Successful candidates will be required to undergo background screening and offers of employment will be subject to the results of this screening.

If you are interested in this exciting new opportunity, please provide your current CV and contact details to Anna Greig, Operations Manager at anna.greig@zdlgroup.com. For further information, please visit www.zdlgroup.com
